AUGUST 1990 VOLUME III NUMBER 2

8/2/90 HATONN

May the light shine ever around and about you as you walk through the darkness created for your path. Hatonn present to commune and offer insight to current happenings. I ask indulgence to the Journal and Express readers for there is so much to be handled and time and resources limited as to quantity of information we can disperse. Please know we are doing all humanly possible to bring forth responses to your queries.

WHAT IS REALLY IN THE NEWS THIS DAY

We had begun on a full dissertation as to why the probabilities of war occurring in Iraq and Kuwait was imminent. We were unable to finish in time for dispersement prior to the invasion by Iraq. In a minute we will look at what is really going on but first I must make a few statements to you precious ones who write to us. I must ask indulgence and patience in personal response for we are absolutely smothered in piles of work.

We have another concurrent situation which is time consuming and energy debilitating. As investigations proceed regarding the S&L, RTC and this property, Dharma has moved into a fast to precipitate attention to the matter--which, although ones are diligent in timely dispersement of the information to Senators, central

participants, etc., it is not quick enough to avoid impact on my scribe. The attorneys for our cause have succumbed to the pressure and have asked court relief from the case for the ties of corruption go far beyond the governor of the State of California, Representatives to Congress and all the way to the top of the RTC, etc. The case will simply have to be utilized as a national example and I would ask all of you readers to unite in writing to every public place you can think of in our behalf. If you call or write to America West, someone will give you information regarding the case so that you work in an informed manner--THIS situation is one which will end up touching all of you for the INTENT is to take and control ALL property--YOURS MAY WELL BE NEXT! The tabloids are excellent resources for coverage for those are the most read papers--it is only of value to major press as human interest but will give us a forum. It might seem little to do, but what of the "mountain springing forth from the mole-hill?" We can maintain her in some measure of health safety through August, but the physical form may well shut down prior to that--it is not weight loss which impacts, it is the toxins released which damage, irreversibly, the organs. Therefore, I ask your speedy action for she is already over two weeks without food intake. Herein is a place whereby you can participate most

nobly--for those of you who have asked "what can I do?" I further request that this Express be gotten out immediately.

Just as example of the corrupt judiciary system: The "rules" gave these ones two weeks to rebut and object to the "relief" of attorneys and that is being honored in Fresno (some distance away but central to the district). In the Local Bakersfield system--relief was granted ex parte in less than three days with no allowance for response from the defendants. Worse, this was to the panel of judges who would decide whether or not to over-rule the municipal court judge, Brent, and allow dwelling availability. I plead with you ones to take notice for you will all end up victim of this massive monster sweeping your land.

Very few of these incidents even show up in court, the public is so blind and the lie and collusion so massive--most just turn and walk away thinking there is no recourse. Ones who have been railroaded, especially in California, come forth and unite--it is the only way you can stand against this steam-roller. I further ask that you refrain from doing what one "friend" has done and simply remark that, "I don't have any help with my property and Dharma can stand to lose a few pounds!" Fortunately, this one is distant but all of you ones must be prepared for that type of self-centered meanness.

THIS IS GOD'S PROPERTY AND WE NEED TO KNOW WHO STANDS WITH GOD AND COUNTRY--IT HAS NOTHING TO DO WITH DHARMA AND OBERLI AND I PLEAD WITH YOU TO SEE AS MUCH.

Back to the current events. You can see it unfolding before your eyes if you take the information given to this point and consider what is happening.

There HAS to be a war to pull out of the slump and better arrange for the control of the masses. Whoever controls the energy resource, controls the world's "wheels". Please note the increase in oil prices instantly! Who benefits from that? Of course! It further gives cause to inflate to out of sight prices and bring an oil shortage like you haven't dreamed of. Plus, you have to have a war to put your masses back to work in the good old industrial U.S.A. Note that a request has been pressed forth for American intervention with military might. Iraq has atomic war-heads but it is probable that they will not yet be utilized for a "war" is not the point at this time--it is to bring Kuwait back into line with oil supply. Russia wants it under control the same as the U.S. and will work most closely with the U.S. to orchestrate the madness. Beloved ones, this could be THE one which can set it all off--pay attention. The conspirators are still perfecting the plan but you are near indeed.

There is a little "annual" meeting in Colorado this day, for your President and one which "he couldn't cancel even in this crisis". It is with the top leaders who regularly meet from the Bilderbergers, Trilats, CFR, etc., just as they did the week of the "Economic Summit" in Houston--Colorado is "WHERE THEY HAVE THE MEETING PLACEMENT".

Further, please note that no sanctions were made against Red China and yet before the smoke clears from the first gunshot in Kuwait--the sanctions are in place and operable. That means, dear ones, that they were already drawn and waiting--your government not only knew of the invasion--but planned it right alongside the other Cartel Planners and now, in Colorado, they will make decisions as to subsequent moves to accomplish whatever they decide comes next.

The thrust is to pull the entire Arab nations group into the altercation and then, do you actually believe Israel will simply sit on their dime? And what of Iran? Iran is already disadvantaged by the massive earthquake--also man created--and the ability to trounce her is obvious. The war can give excuse to totally annihilate Palestine--especially the West Bank. Can it actually happen? Very well may, before you can even receive of this document.

LAST ATLAS ROCKET/ SATELLITE LAUNCH

I may not tell you what is really intended by that flight--I want to keep my people alive, not make sitting ducks of them. I will say, however, that even if it is exactly what the government claims it to be, it has implications which you must not overlook.

1). If, in fact, it is a "locating" computer device which can guide military units, and locate units to the nearest few feet of geographical location---WHY? If you are reducing your armies and closing many of your bases and the war is over--WHY? WHY? AND WHY?

2). Why wouldn't the Russians just take it out? Why would they--they are your joint allies in this maneuver, and, they can utilize the satellite as well as you can, or better. It

is certainly no threat to them--it is an asset at your expense.

3). It should prove to you that all of the other manipulations are set and confirmed--at some point you the public will see the truth of these projections.

4). The satellite is not spying on Russia--its path is over the Middle East. WHY?

You think you don't have sufficient technology? Brothers of the blind tribes--one of your "very own" attorneys is involved with a government lawsuit regarding a "beam system" that could cut through layers of hardened steel in mere seconds--over five years ago. Wake up and smell the toast burning before it is your "feet".

THE ZIONIST "PROTOCOLS"

George met with a business partner yesterday who is furious, fist pounding angry and also a tad aggravated that George is publishing this material. He says that the protocols were written by the Russian Czar to get rid of the Jews. Oops! This man is a Jew! Is he a Zionist Jew? Who cares! Only he need know and the innocent are always the last to know so probably not. I speak not against the Jews of Abraham--I speak of the Zionists who are not actually Jews at all but only have usurped the wondrous race to destroy it. He further stated that we have "everyone" against us. So be it. No, we do not have everyone against us, for if the people awaken, we have the masses with us and it will be the masses who will decide in the end. We, further, have God and the Hosts of Heaven in service unto that God, with us and that will be sufficient unto our needs--for it shall be the truth of the WORD which shall inspire mankind into action. YOU THE PEOPLE CAN CONTROL YOUR DESTINY--BUT TO DO SO, YOU

MUST KNOW HOW IT IS AND ACT--NOT IRRATIONALLY BUT WITH INTENDED PURPOSE. THE "MEEK" SHALL INHERIT THE EARTH AND DON'T LOSE SIGHT OF IT. ONE EXAMPLE IS WORTH A VOLUME OF WORDS--LET US EXAMPLE THIS SIMPLE S&L CORRUPTION AND THIS PROPERTY IN THE WORLD PRESS AND IT BECOMES HARDER TO HIDE THE TRUTH. THIS IS BUT AN EXAMPLE AND THERE ARE THOUSANDS IN THE SAME CIRCUMSTANCE TO JOIN RANKS IN THE FORTHRIGHT STAND AGAINST THE SYSTEM. NEVER IN VIOLENCE--IN THE SHIELD OF TRUTH! HOWEVER, IF YOU DO NOT MOVE TO SUPPORT EACH OTHER YOU MAY EXPECT TO BE SWEEPED AWAY IN THE EVER RISING TIDE OF CONTROL.

TAXES

Your government is in the midst of budget dancing. Please note that there is promise of reduction of employees in every major aerospace industry and layoffs and cutbacks in every portion of your nation. Your trade is off, your debt skyrockets and compounds and yet, no consideration is given to a reduction in the people's ability to pay taxes at all. I speak not of tax revolt--I speak of taxes in general--if the people are in depression and out of work--there are no taxes. This, too, is why you must have a war--to put workers back to work on defense spending industry. Therefore the rush will be on to set it up so a Constitutional Convention will be mandatory and the clamps put to you ones. It is indeed serious!

ATOMIC WAR AND SHELTERS

I am most grateful to a reader who

has written the following:

"My next door neighbors are leaders in the anti-nuclear movement here in Alaska. . . . It is reported that all the major U.S. cities (and possibly all cities with 10,000 or more citizens) have a Soviet nuclear bomb of 20 megatons aimed at them. A 20 megaton bomb will blast a crater 3/4 of a mile wide and 800 ft. deep. Without considering that air will be sucked out of shelters within a radius of 20 miles from epicenter, how is it possible to survive a 20 megaton within the crater in a shelter under 10 ft of dirt?"

Hatonn says that everyone will survive in a shelter under 10 ft. of ground but reports on a 20 megaton bomb say that everyone within a 50 mile radius will die. Moreover all the plants in a much larger radius (also depending on winds) will be contaminated for an unknown period of time (maybe decades) and pests will infiltrate the lands and bring disease and death to walking survivors even hundreds of miles away.

This is why nuclear activists don't believe a nuclear war is survivable and why they believe fallout shelters are merely a placebo, therefore a lie.

I personally question coming out of a shelter following a nuclear attack and finding all plants inedible and swarms of hungry disease infested pests racing towards me.

George, I hate to see powerful allies like our nuclear activist friends turned off with information that's not compatible with proven facts (i.e. what a 20 megaton bomb will do). The question becomes "if I can't believe this, how can I believe anything else I read in

the Journals?"

I personally check my truth meter and accept that what feels right. Most of what I read in the Journals feels right to me or I wouldn't continue reading and supporting them. When I'm questioned on some points like the nuclear survival issue I simply don't have a reasonable response. Maybe only humane little bombs will be used and 10 feet of dirt and one week in a shelter will be more than adequate for survival, I don't know. Will you please ask if this question will be answered in the Express so the man I pose the question for will be answered. Sincerely, DBA

Yes sir, delighted to respond. What would the activists have you do? Would they perhaps prove from whence this "proven" information comes? Could it be another great lie in cover-up to keep you blatantly helpless? JUST **WHAT DO THEY PROPOSE DOING ABOUT IT?**

Further, I suggest everyone re-read the material. I did not say that everyone "would" survive--I did say "everyone *could* survive" in a good sturdy shelter with only 10 feet of dirt--less if the dirt is compressed.

This is for several reasons but I shall give you one to chew on. To inflict the kind of damage of which you speak you would have to have a "GROUND DETONATION" which is most highly non-probable and totally impractical on the part of the enemy. An air detonation does more damage to the most people--if unprotected in shelters--and that would be the point. Therefore, you are not likely to have many, if any, ground detonations because that kicks up radioactive dust particles which would blanket your world--and your enemies are not that stupid. Plus, the neutron bomb will be-

come the bomb of choice--this because it kills life but preserves physical buildings, factories, etc. and yet a well built shelter is indeed safe during the early days of such attack.

If the shelter has adequate closures--no air will be sucked out. And, if the detonation is air instituted, it will not dig such a crater--especially if a neutron bomb. If it is accidentally detonated on the ground you still have only an 800 ft deep hole measuring 3/4 of a mile. Well, couldn't you just maybe place the shelter outside the radius of the expected detonation and hookup by a tunnel system? Further, even if the facts are absolutely truth regarding the over 10,000 population targets--aren't these simply good reasons for spreading out and being in a non-targeted area? They can't hit everything! The point will be to maintain the planet to its best advantage for later use so the planning is careful indeed.

As to plants and insects. Yes there would be devastation on the surface in total amounts in some areas--but for instance, if you have underground protected greenhouses you will be able to grow even if the ground is contaminated. ALL ground will NOT be contaminated nor will all ground water but surface water probably will be intentionally contaminated. There are ways to clean up water, my friends; that is just something else they don't allow you to know. If the nuclear activists spent as much time preparing for the possibility of survival as they do talking about why it can't be done, you would have shelters and storage. Your enemies depend on you to be distracted and rendered inactive.

Now, as to pests--if "everything" is killed and the plants gone---where are these "pests" going to come from? You can't have it both ways! What pests will be left to

rush to eat you?

I want to point out something else to you movie believers. Irradiation mutation does not breed giant species in great masses. Radiation kills and mutates to stunted species. Further, if the insects are dying of radiation poison, they won't be very hungry for radiation sickness is very appetite killing in its own right. Part of the problem you will face is that there will be no insects and scavengers to help tend the dead and dying and the diseases which have grown resistant to your modern medical treatments and radiation therapy will feed upon the dead flesh without method of disposal of natural manner. You will pray for the insects and vultures to come.

The government is getting ready to give you a real fuel shortage and therefore perhaps you ones can practice staying home and digging or walking. You need the shelters and storage to survive your own government plans readied for you.

Is nuclear "stuff" not bad? Of course it is bad--just don't confuse "bad" in general with inability to survive a nuclear attack if you are prepared. I can, however, point out that you may be already too late to get a superb system into operation for your wealth has flowed into destruction and earning money on money and not production--anyway, you are all caught short. Your surpluses have gone to your own enemies for their survival systems--they also have shelters--you do not!

You ones further ask, "What is Dharma doing about shelters etc." At this point, nothing, for these one's thrust is to get the word out with as many instructions along with truth as possible, to the public. They have no resources with which to place a shelter and the property is in litigation whereby they cannot dig on the land if they had the resources. They just con-

tinue to do their job to the best of their ability and if they perish, so be it, is the conclusion they have reached. They spend money on postage--not grain and printing, not fuel--they have exhausted all resources to bring forth the WORD. I am reminded: "NO GREATER LOVE HATH ANY MAN THAN TO LAY DOWN HIS LIFE FOR HIS FRIEND." That, dear ones, is the level of dedication of my beloved Phoenix central "troops".

Do they "want" to get killed? Foolish question--do you? And yet it is the attitude of helplessness that keeps you in non-contribution except to tell us "why our's won't work" without solution of any manner. Don't tell us what won't work--just stand aside and you will see that with God, ALL is possible and most surely will work. Pitch in contribution of service, or whatever, and in unity you can change the end of the world from the "end" to the "new beginning"--it is Satan who immobilizes you by such projections of hopelessness.

If ones would stop being "activists" and become "actors" in reason and purpose without the violence which only ends you in jail, we could get our work done very quickly. You are kept fragmented in purposeful distraction in order that you not unite as a total citizenry. You the people keep sending criminals into your Congress. You send men, even of good intent, in general, who have not so much as "read" the Constitution. You send victims of the lie into the nest of the liars and salute them when they remove each of your freedoms in order to stir around in some special interest facet of society---the special interest group the government and the Global Planners 2000 are out to get--IS YOU THE PEOPLE! It is all but finished! It will be exactly as you allow of it to be.

CORPORATIONS

Another major item is Corporations. Herein I shall repeat some things and please hear me. I say everyone can use a "retirement" or "family" corporation. Yes, that does not mean that everyone will have one--there are thousands and thousands who do not need such in reality of practice for the assets may not be enough to merit the investment of time and money. However, if your assets will be greater than the cost of the corporation in Nevada which is less than \$1,500 to start and minimal to maintain--then it would benefit you in so many ways, from privacy, security, tax avoidance, stopping the in-fighting of greedy offspring and on and on. A corporation never dies, it just gets a new president. No bank accounts are held in probate, etc. I simply cannot take the time to give a full lecture on "how to", I can only basically tell you what is available and you ones must do some of your own homework--the people on my staff are busy some 20 hours a day. We will continually try to make available information and perhaps we can begin to have regional meetings, such as Freedom '90 just past, and allow these subjects coverage with handout materials to cut expenses and travel. We also have to remember that it is most expensive to even remain in operation, much less cover all these necessary facets. Please bear with us until we can better serve you.

I would like to herein share some insight and I shall simply quote from one in the real estate business for years and years and utilizes dozens of corporations personally. His input is valuable for consideration and perhaps states the situation more clearly than can I. He speaks of close "family friends" sharing your business, etc., as well as friends and that is excellent--also, if incorporated. But suppose you have no willing mem-

bers and the estate is messed up and, and, and---

IF YOU CAN'T PLAN YOUR OWN DEMISE, THEN PLAN TO BE IMMORTAL. Jack Miller

In lieu of finding that trusted friend with whom to entrust the management of your financial affairs, consider an operating corporation as an alternative. Think for a moment of how a corporation really operates. Shareholders

choose Directors (so you can pick a group of savvy people to make the broad policy decisions and to develop long term strategies for the deployment and investment of your assets). Directors hire Officers. Thus, the actual implementation of these policies will be taken care of in your absence. As the principal stockholder, you can control the Board with your vote, and thus the selection of Officers too. Once you're satisfied, you can leave your proxy with an agent who will oversee your interests. This not only provides for future continuity of income for yourself and your heirs/or favorite charities. It also relieves you of any day-to-day management chores you don't like TODAY.

It's not as hard as you think. INCORPORATE! I recently had a chance to visit one of the retail outlets owned by Hughes Property Management, Inc. That's a company started by Howard Hughes. Although he died in March, 1976, his company lives on, earning tremendous profits. Oh, you might know it by its 'trade name', 'THE SANDS' (Nevada). It is a casino on the strip in Las Vegas. It still employs lots of people, pays taxes, is still growing and competing while it adds to his

estate for the benefit of his (apparently millions of) heirs. Because it's an operating business, it can offer a variety of methods by which heirs can benefit. They can become employees and managers, leasing specialists, casino operators, booking agents, accountants, lawyers, financial advisors. They can sit on the Board of Directors and/or serve as Officers with a basket full of fringe benefits. Or they can just be stockholders living off their dividends. It provides great flexibility.

Hatonn: Oh, you say, "Well, I'm not Howard Hughes--I just have a little bit of retirement and some property of not much value." Good--you only need (1) (ONE) person to serve as "everything" important in your Nevada Corporation and the owner of the corporation is never divulged to anyone unless you do it yourself and then they can't "prove" it. That means you control the stock, the business, etc., and have an arrangement whereby you have a "run my business until I die" constraint if you choose.

Basically all those who retire should form a corporation and use the framework it provides for meaningful work, recreation, estate planning, a source of dividend income outside the limitations set by depression and early death, etc. That is reason enough to get yourself or your parents incorporated--in Nevada--even if there are not valid business reasons why this would seem to make sense. But there are. Everything from fringe benefits to pay medical insurance costs, fantastic Defined Benefit Pension Plan tax shelters at their age, incorporated hobbies, and a sense of real self worth for them and for you. And think a minute--who would you get for executor of your estate and walk the assets through probate, etc? Is it not your family members usually?

Then put them on your Board of Directors and set up non-voting stock, etc. There are many ways to handle the details.

What guarantees that Nevada will stay flexible and out of the grips of the Cartels? Because it is where the boys of the Cartels set up their business interests--there and offshore. Further, it probably will fall to the system but you will have perhaps bought a little security and stability in the meanwhile.

LETS TALK "PRIVACY"

How can you insure maximum privacy, anonymity and protection of your assets?

One way to maintain the privacy and anonymity of ownership or control of your assets is to have those assets in a corporation whose ownership is difficult to detect. You can increase this privacy by not actually owning the stock of the corporation, while still having as much control as you desire. (John D. Rockefeller once said that the secret of his success was "owning nothing but controlling everything".) And if anyone should know, it would be David Rockefeller.

One way to achieve this control without ownership is the "Endorsed-in-Blank" technique. To understand how this works, you must understand that stock certificates are very much like checks. The registered owner can "endorse" the back of the stock certificate and give or sell that certificate to a third party in much the same way that the recipient of a check can sign it and pass it on to someone else. Usually this endorsed certificate is then submitted to the corporation's corporate secretary who issues a new certificate in the new owner's name.

HOWEVER, and this is VERY IMPORTANT, until the endorsed stock certificate is submitted to the

corporate secretary, the corporation's STOCK REGISTER will show the stock belonging to the original shareholder and the stock certificate will generally state that it is only transferrable on the books and records of the corporation.

Therefore it is quite possible to issue a stock certificate to a third party who immediately endorses the certificate and hands it to the ultimate owner (or some other third party). This person holds on to the certificate and does not submit it to the corporate secretary. In the meantime anyone who examines the share register will see that the original owner is still a shareholder in the corporation.

There is added flexibility in the use of the Endorsed in Blank technique as well since the decision as to who the new owner will be can be made at any time by the person in possession of the endorsed certificates, depending upon the legal ramifications.

This technique can work very well with the Warbucks/Red Inc. strategy (see PRIVACY IN THE FISHBOWL regarding corporations). This would be where Red Inc.--your home state corporation (and you would need a second corporation in your home state in this instance)--has all its assets encumbered by Warbucks--the Nevada-based corporation. By using the Endorsed in Blank tactic, you can make it very difficult for anyone to find out who the real owner of Warbucks is...and, if you do things just right, then it doesn't matter who the real owner is, because it is not reflected as "you".

As a matter of fact, Nevada law can make even the tracking down of a corporation's share register tedious in the extreme. The register does not have to be kept in Nevada. The Nevada offices of the corporation must merely keep a record of WHERE the register is

located. Further the locations can shift at random with a simple notification and if the notification happens to cross investigators in the mail--so be it.

This is just one little example of how to utilize the tools. Obviously if you are retired and simply are running hobbies and family business of personal nature for the benefits under incorporation--you won't do all this other "stuff". Remember, these bits of information are going to the most sophisticated of business owners and to the least of the interested public. We cannot cover it all and you must be selective as to that which can be utilized.

A NOTE FROM A SUBSCRIBER

I especially thank the sender of this following note which I want to comment about. I do not jest, I thank you for this opportunity to emphasize the last statement regarding information and the Expresses as well as the Journals.

"S.R.: I fully intended to let my subscription lapse until the last issue arrived. It was the only one that included material that we did not already know. (Vol. II #13). We sure don't need any more issues where Hatonn has to defend himself and others. I was beginning to think he was a bit paranoid. I'll try again. P.S. I want to know the news behind the news and what is being planned for us besides the bomb."

I can only repeat that we do the best we can to make a widespread scatter of the material. I will not tell you unknown information that will get my people killed--they are already under attack, physically, on a constant basis. The point, in addition, is not for me to "think for you", it is to give you information, solutions, relationships, etc. and

have YOU THINK!

Sometimes I will appear to "defend" self. What you don't know is that, in each instance whereby the "defense" was put forth in shared format, I received such thank-yous that they could not be counted. Further, two of the ones which proclaimed attack upon me in the most heinous manner--are now my most faithful friends and workers. God is indeed wondrous in his mysterious manners of work.

If I really wanted to share "fun" with you, I would publish in the Express the documents sent to me from William Cooper which no longer negated my projections but rather discounts his own prior "informers" and has publicly listed the ones who are still in the service of the CIA, etc., and set forth for disinformation/misinformation purposes in total. Please understand that there is often a valid reason behind those things which we write which may not be intended for a general reader--but rather, specific to one. We simply do the best we can and always, ones who subscribe are most welcome to not renew a subscription if you so-choose. I would suggest, however, that if you stick with us, we'll get around to your favorite subject as time limitations and urgent matters permit.

It, unfortunately, is not a matter of us not telling you sufficiently "what to do", it is rather, that no one seems to want to do of it. I will also have to tell you that if it is the bomb that will get you next--it is what I will talk about. Sorry! You are going to get truth herein and suggestions for actions which will ultimately work to change your plight--if you choose to ignore them all the "lack of me speaking" about them will do you no favors.

Let me point out a very serious confrontation. Sananda, Ashtar,

Hatonn, Dharma and Aton were directly confronted by Satan as Jehovah (IHIV), in this dwelling--with witnesses present, giving cease and desist or be thrown into Hell! The energy was so violent that it caused a whirlwind around this dwelling for some three minutes. It was presented in the form of a certified mailing bearing every curse available. You ones can either succumb to these attacks or you can stand strong--for they cannot touch you if you stay strong within the lighted forces. Evil energies can only cause you to act foolishly. A further interesting note, however, and should interest all of you readers; this energy has also separated out placement in Hell for all the evangelical preachers and their congregations, but not for the same reasons, for with them it is that the lies are so terrible to both sides that they are up for destruction. This was accompanied by an exact date, for you who like dates--try May 5, 2000. This can indeed be terrifying, especially if the CIA is after you, also, but I find strength and humor prevailing instead of terror--it is debilitating, however.

Do I take this lightly or belittle the bearer? Of course not, and neither had you better do so. This is coming with full intent of follow-through by etheric means or physical methods. This is a total "notice" of intent to take us out of circulation--NOW! The intent is total and deadly and we certainly acknowledge it for that which it is. It is time you all begin to understand and comprehend the magnitude of that which is come upon you as a global species--the time is at hand. Selah!

Please arrange this Express to either go in this quantity of writing or rapidly add unto it--time is extremely important. Walk and act in peace within--but keep walking and acting so that peace might abound all about you. In love and respect I take my leave. I salute

you for your interest and your willing service. Behold thine God for his radiance shall shine all about thee and His presence shall touch of thee and He shall make thee whole. Thank you for holding us in your prayers of protection for we are most aware of it and we offer our own protection and blessings unto you. Salu.

The subject of this Journal is the Federal Reserve System and the Federal Reserve banks. This is the one most important deception and subterfuge ever foisted upon the world. It actually is only the conduit through which the Conspirators have perfected their "PLAN". The Journal would be ten times this length if we unfolded details but while we would be unfolding you would be consumed. Let us please take the information, confirm it if you will, and allow us to move into action.

Let us quote Congressman Louis T. McFadden in a speech before Congress June 10, 1932:

Mr. Chairman, we have in this country one of the most corrupt institutions the world has ever known. I refer to the Federal Reserve Board and the Federal Reserve banks. The Federal Reserve Board, a government board, has cheated the Government of the United States and the people of the United States out of enough money to pay the national debt. The deprivations and the iniquities of the Federal Reserve Board and the Federal Reserve banks acting together have cost this country enough money to pay the national

debt several times over. This evil institution has impoverished and ruined the people of the United States; has bankrupted itself, and has practically bankrupted our government. It has done this through the defects of the law under which it operates, through the maladministration of that law by the Federal Reserve Board, and through the corrupt practices of the moneyed vultures who control it.

Some people think the Federal Reserve banks are United States Government institutions. They are not government institutions. They are private credit monopolies which prey upon the people of the United States for the benefit of themselves and their foreign swindlers; and rich and predatory money lenders. In that dark crew of financial pirates there are those who would cut a man's throat to get a dollar out of his pocket; there are those who send money into states to buy votes to control our legislation; and there are those who maintain an international propaganda for the purpose of deceiving us and of wheedling us into the granting of new concessions which will permit them to cover up their past misdeeds and set again in motion their gigantic train of crime.

Yes, there are things you can do to take action and we have laid them forth. Will it be easy? NO! You will need to start at "home" in the community and unify and get rid of the thieves and conspirators which you continually send back to be wardens of your prison and robbers of your property. They, too, are vulnerable to the nuclear bombs and confiscation--they just have forgotten as much. Your Senator is as physically mortal as are you and will die as quickly and suffer as greatly from the collapse

which is coming. Preparation? You have all but waited too long, but you still have time, while the elite vie for position to see who will outdo who and gain the ultimate control--the messages, unfortunately, of the prophecies tell you who that will be and those ones will bring devastation of physical nature--not just glean all property and wealth.

In for a hard time? Yes! But also a wondrous time of unity, brotherhood and freedom from boredom and degradation as fed to you by the silver spoons of the puppet masters.

Which will it be, citizens of World Earth? Freedom or enslavement? The choice is yours, for God so loves this world that he again sends his Hosts and his being to show you the way! Who will see and hear?
